

PRESS RELEASE

STAKEHOLDERS EXPLORE EU-KENYA BIOENERGY ROADMAP

Stakeholders convene in Nairobi to explore EU-Kenya bioenergy roadmap.

Nairobi, March 25, 2024:

An engaging meeting unfolded at the esteemed University of Strathmore grounds in Nairobi, Kenya, where **Dr Ioannis Tsipouridis presented the FUELPHORIA project to a diverse assembly of Kenyan stakeholders** coming from academia, governmental agencies, industries, farmers' associations, and the private sector.

The meeting fostered a **dynamic exchange of perspectives on the feasibility, challenges, and advantages of forging ahead with the establishment of an "EU-Kenya Bioenergy Roadmap"**. The discussions delved into the pivotal role bioenergy could play in Kenya's sustainable development journey.

Participants unanimously agreed on the importance of sustaining this dialogue and exploring potential collaborations. As a concrete step forward, there was consensus to pursue further engagement and possibly organize a workshop under the FUELPHORIA umbrella.
